

Product information sheet

R-Clean Carpet Extraction Cleaner

For spray-extraction and shampooing.

Product description

High concentrated product for spray-extraction. Due to many lime binding components obstruction of the sprayers caused by lime deposits is prevented. The product takes care of quick moistening and binding of dirt and has a de-foaming functioning. Suitable for all sorts of colourfast carpets and furniture textile.

Instructions

First test if the carpet is colourfast. Before cleaning vacuum the carpet and treat stains. Dilute 10-20ml/litre in hot water in the tank of the machine and clean the carpet. To avoid shining, do not work too wet on wool carpets or jute undercoats. Use ca. 1 litre solution per m² carpet.

Safety

Information on safety, transport, handling and storage is listed in the safety data sheet.

Chemical- technical information

- Description: colourless liquid
- pH-value: 10
- Density.: 1,1 g/cm³

Packaging information

Pack size: 2 x 5 litre
Item Number: 500001236810
