

## Product information sheet

### R-Clean Episan

Sanitary cleaner.

#### Product description

This product is used for periodic cleaning. It is an acid product which has scale, rust and grease removing properties. R-Clean Episan can be safely used on tiles, glazed surfaces, chromium, stainless steel and acid-resistant stone. It removes soap and chalk deposits on baths, wash basins, toilet bowls, urinals, shower heads, taps, tiled walls and floors, etc.

#### Instructions

Dilute 300ml to 100ml/litre depending on the extend of the deposit. Even a solution of 20ml/litre can be sufficient on light chalk deposits. Dilution with hot water quickens the action. Allow to soak for several minutes, brush if needed and then rinse thoroughly with water.

#### Safety

Information on safety, transport, handling and storage is listed in the safety data sheet.

#### Chemical- technical information

- Description: liquid, yellow
- pH-value: <1,0
- Density: 1,046 g/ml

#### Packaging information

Pack size: 2 x 5 litre – 12 x 1 litre  
Item Number: 500001222494
