

Product information sheet

R-Clean Oven & Grill Cleaner

Oven & Grill cleaner.

Product description

This product is used for the removal of strongly baked-on and burned-on grease, protein, starch, charred residues, etc.

It is used for baking ovens, grills, cookers, frying units, chip pans, transport and production material in bakeries, etc.

The high alkalinity and the action of special surface active constituents gives R-Clean Oven & Grill Cleaner a strong cleaning action for vegetable and animal contaminants. It can be used on stainless steel and iron, but not on aluminium, zinc, brass, galvanised or lacquered surfaces.

Instructions

This product has an exceptionally strong action on a heated surface. Ovens etc. can therefore best be heated to a moderate temperature (e.g. 80 to 100 C). The product is applied undiluted by spraying, f.i. with the special sprayer with has an extended pistol and a long tube. Allow to soak for 10 to 15 minutes, brush if needed, and wash off well with water.

Safety

Information on safety, transport, handling and storage is listed in the safety data sheet.

Chemical-technical information

- Description: Colorless liquid
- pH-value: 13,9
- Density: 1,2 g/cm³

Packaging information

Pack size: 2x 5 litre
Item Number : 500001226116
